Mankilam, Tagum City, Davao del Norte, Philippines – 8100

CAREER OBJECTIVE

Full-stack developer with 1+ year building and maintaining production web systems using React, Express.js, Node.js, and PostgreSQL. Currently leading IT operations and software development at a licensed lottery operator in the Philippines — shipping features end-to-end, from database design to deployment. Experienced working across distributed infrastructure and async workflows. Open to remote backend or full-stack engineering roles.

EDUCATION AND AWARDS

BS Information Technology, University of Mindanao – Tagum Branch **2021-2025**

- Core studies in programming, database management, networking, systems analysis, and web technologies. Completed practical projects in software development and IT infrastructure.

Nabunturan National Comprehensive High School Integrated – Senior High School **2014-2020**

- Senior High School Diploma, General Academic Strand (GAS). Provided a broad foundation in communication, research, critical thinking, and problem-solving, preparing for diverse academic and professional fields.

Mipangi Elementary School **2008-2013**

- Completed elementary education with foundational training in literacy, numeracy, and basic sciences.

RELEVANT EXPERIENCE

Northman Gaming Corporation – CBC Building, Pioneer Avenue, Tagum City, Davao Del Norte, Philippines, 8100 **2025–2026**

- **IT Supervisor** (*March 2026*)
Lead and supervise a team of 2 IT Staff, assigning tasks, monitoring performance, and ensuring timely resolution of technical issues. **Oversee daily IT operations**, including system administration, network management, and user support. **Coordinate incident response, escalation, and root cause analysis** to minimize downtime. **Plan and implement system improvements, infrastructure upgrades, and security measures.** **Ensure proper documentation, standard operating procedures, and compliance with IT policies.** **Provide guidance, mentoring, and technical leadership** to the IT team while aligning IT initiatives with business objectives.
- **IT Staff** (*June 2025 – March 2026*)
Provide technical support and troubleshooting for hardware, software, and network-related issues. Maintain and monitor computer systems, servers, Ubuntu Server environments, and local area networks to ensure smooth daily operations. Develop and maintain company websites and full-stack web applications using **Vite, React, Express.js, Node.js, and Python.** Manage and optimize **PostgreSQL** and **MySQL** databases for efficiency and reliability. Oversee network configuration, monitoring, and performance tuning. Monitor department operations and assist in system upgrades, data management, and IT security protocols. Collaborate with various departments to address IT concerns and support organizational goals.

- **IT Intern (Practicum) (October 2023 – January 2024)**

Assisted in maintaining and troubleshooting computer systems and office networks across various departments. Supported database management and records digitization to improve information accessibility. Provided technical support for staff, including hardware setup, software installation, and system updates. Participated in IT-related projects, gaining practical experience in government office systems and operations. Strengthened communication, teamwork, and problem-solving skills in a professional public service environment.

ADDITIONAL SKILLS AND INTERESTS

- **Website development (backend focus)**

Experienced in building and maintaining full-stack web applications using **Vite** and **React** for the frontend and **Express.js**, **Node.js**, and **Python** for the backend. Skilled at creating **RESTful APIs**, developing responsive and dynamic user interfaces, handling authentication and authorization, and integrating third-party services. Familiar with version control (Git/GitHub) and deployment on local and cloud-based environments.

- **Database management and manipulation**

Proficient in designing, implementing, and optimizing relational databases with **PostgreSQL**, **MySQL**, and **SQLite**. Skilled in writing complex queries, performing data normalization, and ensuring security, reliability, and scalability. Experienced in troubleshooting performance issues and handling large datasets.

- **Software development**

Strong foundation in developing desktop and web applications using **VB.NET**, **JavaScript**, and **Python**. Experienced in applying software development life cycle practices from requirements analysis to deployment. Adept at problem-solving, debugging, and creating user-focused solutions tailored to project needs.

- **AI and machine learning**

Experienced in developing and integrating AI-powered solutions using Python, leveraging libraries and frameworks for machine learning, data processing, and automation. Passionate about applying AI to solve real-world problems and enhance system intelligence.

- **API and webhook integration**

Skilled in connecting applications and services through **REST APIs**, **JSON**, and **webhooks**. Capable of automating workflows, synchronizing data across platforms, and extending system functionalities through seamless integrations.

- **Digital tools and productivity software**

Proficient in using **Adobe Photoshop**, **Canva**, **Adobe Premiere Pro**, **Adobe After Effects**, **Adobe Acrobat**, and **Microsoft Office Suite**

(Word, Excel, PowerPoint, Outlook) for creative, professional, and administrative tasks.

- **Personal interests**

Enthusiastic about **artificial intelligence, Raspberry Pi projects, and smart home automation**. Passionate about experimenting with emerging technologies and developing innovative solutions that bridge creativity and functionality.

EMPLOYMENT AWARDS & RECOGNITION

Northman Gaming Corporation – STL Davao Del Norte

**December
2025**

- **Department Top Performing Employee**

Recognized for outstanding performance and contributions within the IT Department. Awarded in acknowledgment of exemplary dedication, technical competency, and commitment to departmental and institutional goals.

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

Ambitious United Responsive Individuals of University of Mindanao (AURIUM) – Official Collegiate Yearbook Publisher Office

2023-2025

- **Editor-in-Chief** (2025)
Directed the editorial and creative production of the official collegiate yearbook. Led a multidisciplinary team of 10 members, enforced editorial standards, coordinated with university stakeholders, and introduced innovative design strategies to enhance engagement.
- **Managing Editor** (2024-2025)
Assisted the Editor-in-Chief in supervising editorial workflow. Managed the editing team, ensured quality control across written and visual content, and acted as liaison between editorial and production teams to streamline publication processes.
- **Editorial Staff** (2023-2024)
Contributed articles, assisted in proofreading, and supported layout and design processes. Collaborated with writers, photographers, and editors to produce accurate and engaging content for the yearbook.

Council of Student Organizations – University of Mindanao, Tagum Branch

2023-2024

- **Public Information Officer (PIO)** (2023–2024)
Managed internal and external communications for the council. Oversaw dissemination of official announcements, designed publication materials, and maintained transparency between student organizations and the university community.

Computer Debuggers Society (CoDeS) – University of Mindanao, Tagum Branch

2023-2024

- **President** (2023–2024)
Directed the organization's programs and initiatives in technology, programming, and student development. Coordinated training, workshops, and events to enhance IT competencies. Represented the society in academic and institutional activities while fostering collaboration among members.
